Get ready for level 4 spam flooring, because this set will have gagaga prototypes. Expressing more love for the zexal protagonist's prototype, a well-confirmed Gagaga structure set has the popular 4th rated toolbox, Gagaga Cowboy. Cards appear in the official trailer These cards appear alongside their respective confirmed duel players in Konami's official announcement. So we can assume they will be released together with their users. The characters available at the original release Zexal character confirmation and character information There is some leaked drop rewards information of Zexal characters, skills, and others. Please click on the link below to see information: Tokyo Game Show Tokyo Game Show 2020 will be held on September 23 - September 27, 2020 in Japan. Therefore, the Zexal world announcement can be published. Soon we will have zexal duelists and their cards! Stay tuned! Yu-Gi-Oh Zexal Xyz summons what the Xyz monster is determined by the black color of their card. They are located in the space that shares the extra deck with the Fusion monster and other future sub-deck mechanisms. This means you'll have to manage your extras better to fit everything you need. But it also means that you don't lose consistency when running them as they won't be drawn from the main deck. The general rule when Xyz summons a monster is by stacking two or more monsters from their yard with the same Star Level as Xyz's Monster Class. Sometimes there are additional specifications for this rule, such as allowing summon xyz outside its parameters through such as Rank Up Magic Cards or Xyz Evolution, but they will be in the card text. Summoning Xyz is also a special type of summoning. Other possible Zexal Duelists can Xyz Cards when originally released In addition to the cards seen in the trailer, here are some other cards we can see when Zexal is available. Additionally, some of these tags were seen being used in Konami's official announcement. Number 17: Leviathan DragonWATER Dragon ★3ATK 2000 / DEF 0 2 Monster Level 3Monce per turn: You can separate 1 Xyz Material from this card; this card increases by 500 ATN. If this card does not have Xyz Material, it cannot directly attack the opponent. Monster Grenosaurus GrenosaurusFIRE ★3ATK 2000 / PM 1900 2 Monster Level 3When this card destroys the opponent's monster in combat and sends it to the Graveyth: You can separate 1 Xyz Material from this card; inflict 1000 damage to opponents. Submersible Carrier Aero Shark Sinking Carrier Aero SharkWATER Fish ★3ATK 1900 / DEF 1000 2 Level 3 MonsterMonce per turn: You can separate 1 Xyz Material from this card; Inflict 100 damage to opponents for each of your expelled monsters. Black Ray Lancer Black Ray LancerWATER Beast-Warrior ★3ATK 2100 / DEF 600 2 Level 3 WATER monstersOnce per turn: You can detach 1 Xyz Material from this card to target 1 face-up monster on the field; denies the effect of that goal until the End Stage. Hot New Top Anonymous's wait for tin goldfish is actually an lvl reward which means goblinbergh for the next will be useless && Anonymous Anonymous Reply News Goldfish is not a level up reward, unfortunately. && Anonymous Anonymous Reply I guess it was too good to be true && Anonymous Replied Well, maybe when zexal world characters get their levels increased. Bronk will get one as granted as reward. Or it will be in the next box so that we can get 3 copies immediately. && Anonymous Anonymous 18days ago Reply yep it's a box card 937S 18days ago I wish all characher Anonymous would konami put tsukumo kari in duel link. Please konami put her in the game I wish her very bad. && answered anonymously but she won't have deck to use. She didn't fight at all. && Anonymous Anonymous Reply In another console game, she uses the Evilswarm deck. But yes, she's the kind of supporting character and doesn't fight. Like Tristan in that sense. She MIGHT be released eventually, but I doubt it will be within 1-2 years time. && Anonymous Anonymous Reply Problem is, we already have an Evilswarm user character in the game: Aigami, aside from Cubics he's being given Evilswarm cards to contrast with Sera having Constellar for whatever reason && Anonymous Reply I still don't get why they chose Aigami for Evilswarms. Something told me the thought process went Hmm, he was beaten in Mahad's film, and we gave his sister Constellars because they went with her unknown Duelist design... I got it! We'll give him a dark version of Sera's card! It's so unique! On the other side, Number 96 also plays Evilswarms in Legacy of the Duelist: Link Link DGouin98 The only question I have is why Bronk and Yumas' voices are not the same as in the anime, where tori and astral are && Anonymous (DGouin98) Anonymous Reply Is not sure about Bronk, but Yuma VA's original English dubbing no longer does voice acting work. Now he is in politics, so it makes sense that Konami does not want to ask him to do voice acting work again. Having a politician around is a sensitive topic. Besides, the new English dubbing VA for Yuma has a more pleasant voice for everyone's ears than the old English dubbing. && Anonymous Basil Reply Eil James will return as Yuma alone without Astral and also zexal form at Duel Links. Konami anonymous! When the missions of a stage in the world of enthusiasm are completed and gems are taken or will be taken, the game closes immediately, and I have to restart the game. This happens with most stages. && Anonymous Reply Everything works well for me. And this is not Konami's help line. && Anonymous Anonymous Reply I'm sorry but I don't know how to find Komani helpline && Anonymous Anonymous Reply You can contact them in-game at the option screen -> && Anonymous Anonymous Reply It happened to me too a couple times on the first day of zexal world, but I think they fixed it, because it never happens again so far. Unknown person called me crazy but I started a new account and am currently building a six samurai floor. Basically I see their potential here 2 shein and rihan one extra deck + any 4 of any good ranking 4 monsters xyz in general would be nice. && Anonymous Anonymous Reply Yep. Ironically, SixSam has their own Rank 4, but it's terrible. Basil No. 9 belongs to quinton, for which he will participate in the Yugioh duo. Anonymous Finally 7 slots add deck && Anonymous Anonymous Reply Yep, finally :D Anonymous will ever have no. 9: Dyson Sphere in the duo link ever? && Anonymous Reply Considering the Zexal World story involves getting back all the numbers, Dyson Sphere (and all the numbers) should be in the final DL. && Anonymous Anonymous Reply I hope it won't be hard to get, Dyson Sphere is one of my favorite numbers. Anonymous Will Silent Horror ark, Castel or Tornado Dragon Be Op in this game? If konami decides to release them, even six sams will use them. && Anonymous Anonymous Reply I believe those cards will be released eventually. Anyway, the cards you mentioned only target a specific card. Changing your winnings won't be much affected by those cards, really. Speaking of broken cards in DL, I believe it should be unimaginable lightning. The anonymous Kaito is not on the :(I think he is the most popular Zexal character so I hope they don't crap about his gameplay too much && Anonymous Anonymous Reply Has data for his skills though, amusingly enough. && Anonymous Anonymous Reply has, for some reason they have data for their skills already in the game, without characters. But at least that means we know Kaito will arrive soon after Shark. Basil I like Eliphas he very good Basil Astral World form also mr. Guardian of Astral World, will be added to that Eliphas character on yugioh match link. England's Basil Reply played well against Yuma in the match against Astral World. && Anonymous (Basil) Anonymous's anonymous answers little very well, and like he just asspull his way out to Yuma hits him with an even bigger asspull lol
